## EXPERIENCE

### ZOOKED INDIA | UI/UX DESIGNER (INTERN)

June 2022 – Current | Remote

- Zooked is a technology-based start-up that provides software as a service of aggregation of group bookings on a platform.
- As a User Experience Designer, I
  - Create User-centred designs by understanding business requirements and user feedback.
  - Create User flows, wireframes, prototypes, and mockups.
  - Translate requirements into style guides, design systems, design patterns and attractive user interfaces.

## PROJECTS

### TAKE A NOTE | REACT JS | 2022

- Take a Note is a simple React.js based Note taking webapp that lets the user Add Notes and Search inside the notes. Dark mode support. Don't worry about closing the browser tab since the notes get saved to local storage.

### PRESS B | REACT JS | 2022

- Press B is an E-commerce website made with React JS, Commerce JS API, Stripe API and Material UI. I made this project during my learning stage on React through a MOOC tutorial.

### DRUM ROLL UI CASE STUDY | FIGMA | 2021

- I created a case study on the UI/UX of the 'Drumroll' app, a music pre-ordering service for musicians, to perform research on User Experience. I captured the Problem Statement, Business Goals, User Personas & Journey Maps, Lo-fi Wireframes, UI Designs and Accessibility considerations.

## COMPETITIONS

### CTRL+ALT+DEL HACKATHON EVENT | BLOCKCHAIN | 2022

- I presented the idea of a simple No-Code NFT generation platform called "Fungen" in the Blockchain and Crypto track. The proposed platform would assist newbie artists in generating, publishing, marketing, and selling their NFTs without writing a single line of code.

### HACKATHON CODING SPRINT | REMIX, FIREBASE | 2022

- I created a Chatbot for legal help using Remix-JS & Tailwind CSS for Frontend & Firebase NoSQL database as backend. When queried the Chatbot uses Python's BeautifulSoup module to scrape the web for relevant results and display. Results are also saved to Firebase to respond to same/similar queries in future.

## SKILLS

### PROGRAMMING

JavaScript • HTML/CSS  
SQL • Python • C++  
C • Shell

### LIBRARIES/FRAMEWORKS

Tailwind • React • Remix

### TOOLS/PLATFORMS

Figma • Git • Unix  
• MongoDB • RDBMS

## EDUCATION

### SRM UNIVERSITY

B TECH IN COMPUTER SCIENCE  
AND ENGINEERING

Sep 2020 - Present | Chennai, TN  
College of Engineering  
Cum. CGPA: 9.29 / 10

### SNBP INTERNATIONAL SCHOOL

SENIOR SCHOOL CERTIFICATE  
EXAMINATION (CLASS XII)

Mar 2020 | Pune, MH  
Physics, Chemistry, Maths  
Score: 71.4%

## COURSES

- C Programming (SRM Centre for Applied Research in Education)
- Getting Started with Python (University of Michigan)
- Python Data Structures (University of Michigan)
- UX Design (Google)
- HTML, CSS & JavaScript for Web Developers (John Hopkins University)
